Terms & Conditions

1. General:

These terms and conditions apply in preference to and supersede any terms and conditions referred to or relied on by the seller whether in negotiation or at any stage in the dealings between the seller and buyer with reference to the goods which this contract relates. Without prejudice to the generality of the foregoing, the seller will not be bound by any document or printed term furnished by the buyer in any of its documents, unless the buyer specifically states in writing separately from such terms that it intends such terms to apply and the seller acknowledges such notifications in writing.

2. Variation:

Neither the buyer nor the seller shall be bound by any variation, waiver of, or addition to these conditions except as agreed by both parties in writing and signed on their behalf.

3. Description:

The description of the goods has been given by the way of identification only and the use of such description shall not constitute sale by description.

(i) Product descriptions on packaging, packing notes, despatch notes, invoices, and account statements etc. are an extension of the product identification code and not prescriptive descriptions for the purpose of sale by description, purpose, or intended use.

4. Sample:

Notwithstanding that a sample of the goods has been exhibited to and inspected by the buyer, it is hereby declared that such a sample was so exhibited and inspected solely to enable the buyer to judge for himself the quality.

5. Liability:

(a) No liability whatsoever shall be incurred by the seller in respect of any representation related or referred in any way to

- (i) the correspondence of the goods to any description or
- (ii) the quality of the goods or
- (iii) the fitness of the goods for any purpose whatsoever.

(b) No liability whatsoever shall be incurred by the seller to the buyer in respect of any express term of the contract whether a condition, warranty or intermediate stipulation (including any liability arising from the breach of such term) where said terms related or refers in any way to

- (i) the correspondence of the goods to any description or
- (ii) quality of goods
- (iii) the fitness of goods for any purpose whatsoever.

(c) All implied terms and conditions or warranties statutory common law or otherwise as to

- (i) the correspondence of the goods to any description of
- (ii) the merchantable quality of goods
- (iii) the fitness of the goods for any purpose whatsoever (whether made known to the seller or not) are hereby excluded from the contract.

(d) Whilst every effort is taken to ensure that real timber parts used are 'sound' at time of manufacture, no responsibility can be accepted for subsequent defects becoming apparent. It is strongly advised that all the plants be regularly maintained and especially with trees in excess of 3m also be regularly checked for minor defects affecting the safety of the tree.

(e) The 'Company' accepts no responsibility for rusting of plant components, especially when used in areas of high moisture content such as swimming pools, external areas or when flame retardant solutions have been applied.

6. Price:

(a) All quotations and estimates issued by the seller are, unless otherwise stated, based on the current cost of production (materials, wage and hours) and are subject to amendment on or after acceptance to meet any rise or fall in such cost.

(b) All quotations and estimates issued by the seller are exclusive of Value Added Tax.

(c) Any variation to price quoted as a result of government taxes and levies will be for the buyers account.

(d) **All quotations and estimates are valid for 30 days.**

(e) Written confirmations are required for all orders and the seller accepts no responsibility for incorrect deliveries if this is not received.

(f) In some instances, at the seller's discretion, a percentage deposit will be required with the order. International orders are subject to a deposit of 50% of total quotation value, paid when the order is placed.

(i) Bespoke items, large trees and pre-potted products (i.e. in GRP planters) may vary from the above amounts and delivery will be charged at cost.

(ii) It is strongly recommended that pre-potted trees be delivered on pallets as this reduces the risk of damage.

(iii) MDF Pots are also recommended to travel on a pallet.

(iv) All deliveries must be checked and signed for at time of delivery. A credit note cannot be issued if the goods have been signed for and subsequently been found to be damaged. If it is not possible to check goods on delivery please sign the delivery note as 'damaged'.

11. Property:

The property of the goods will not pass to the buyer until the buyer shall have made payment in full, and this may only be varied in writing by the seller.

12 Force Majeure:

If delivery is delayed by strikes, lockouts, fire, accidents, defective materials, delay in receipt of raw materials or bought in goods or components or any other cause beyond the reasonable control of the seller a reasonable extension of time for delivery shall be granted and the buyer shall pay such reasonable extra charge as shall have been occasioned by the delay.

WHY CHOOSE TREE-LOCATE?

Since the birth of Tree-Locate in 1994 we have endeavoured to continually improve the products and services that we offer. We believe that we have the most comprehensive range of top quality artificial trees, flowers and associated goods which will satisfy the most discerning taste.

Our range includes bespoke/ specimen trees, with palm trees as tall as 60ft, capable of being manufactured at our modern factory by caring and skilful workers who take pride in hand crafting fine examples of the tree builders art. Care is taken in sourcing renewable materials whenever possible – we wish to protect the environment whilst we also enhance it.

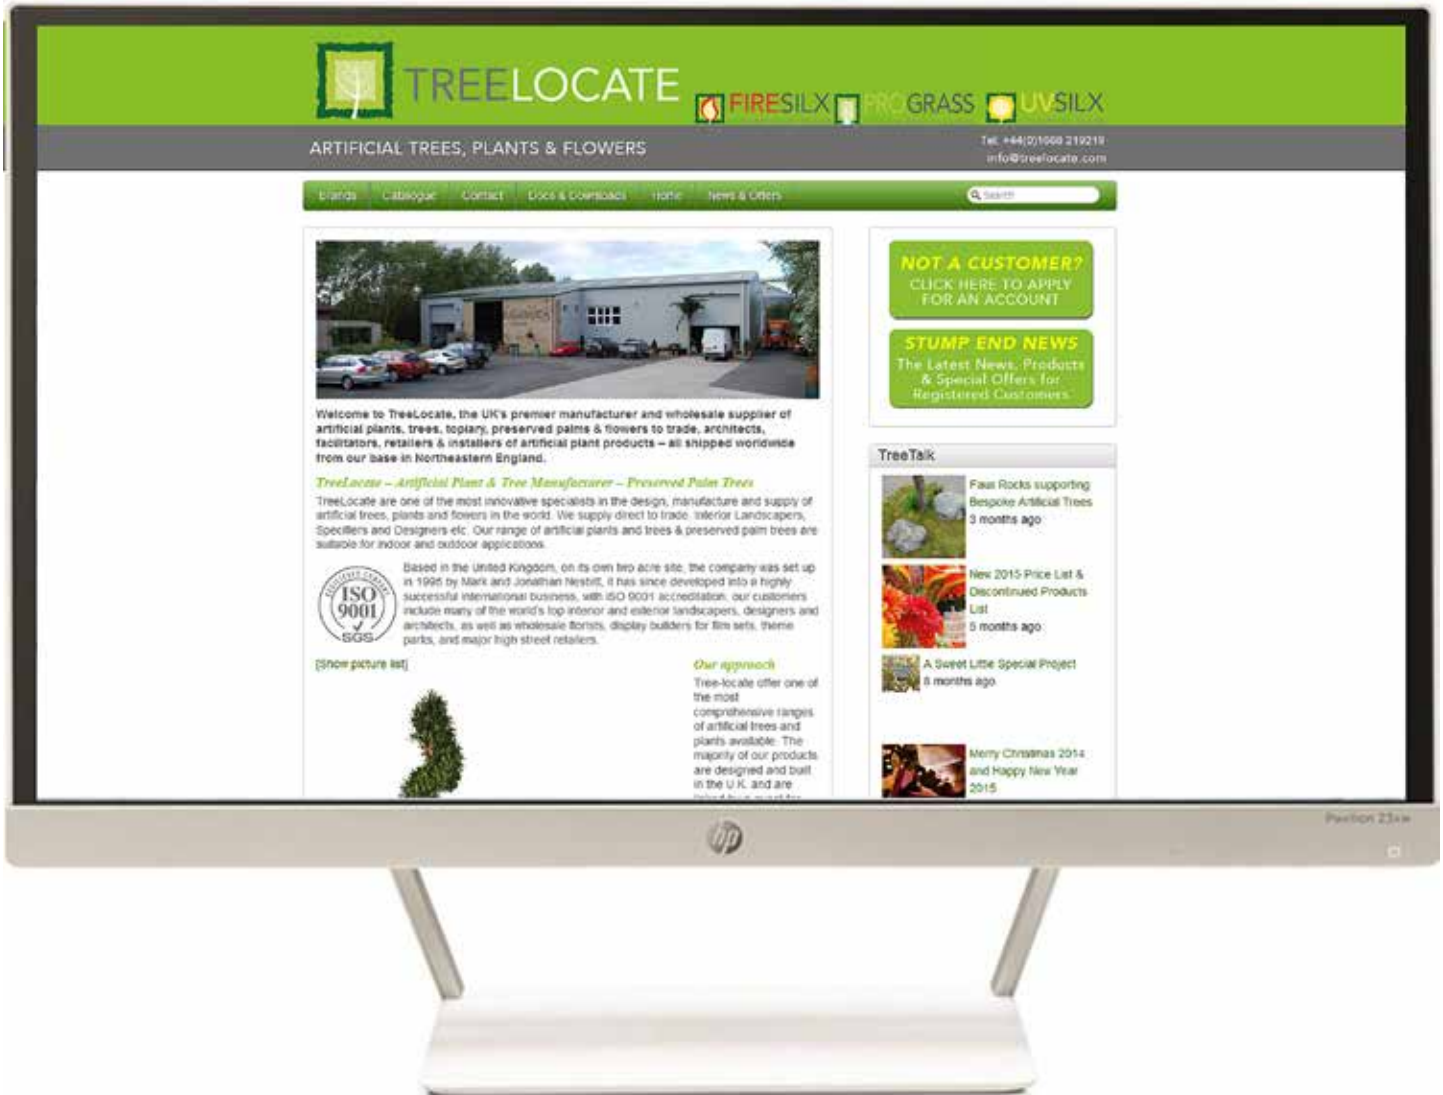

With safety in mind Tree-Locate has developed FireSilx™, an inherently flame retardant Foliage manufactured to meet the stringent standards demanded by many local fire authorities (see details for standards).

You can rest assured that Tree-Locate will bring its years of experience in designing and constructing artificial trees to the fore to ensure your project is afforded the best possible attention to detail and offering complete satisfaction to our clients.
